ALTO

With a one-piece hingeless design, the ALTO crashpad offers excellent protection for bouldering falls, thanks to triple-layer foam assembly specifically developed by Petzl for better cushioning. Its patented folding system lengthens the life of the foam and provides a storage space when the crashpad is closed. The carrying system with its chest and waist adjustments and wide shoulder straps, provides great comfort during the approach.

Practical folding system and zippered flap closure offer a large storage space for carrying items.

Crashpad is comfortable to carry, thanks to wide adjustable shoulder and waist straps.

Excellent compromis entre protection et encombrement, grâce à sa taille de 118 x 100 x 10 cm, une conception monobloc et un amorti optimisé pour plus de confort lors des chutes.

Short Description Crashpad for bouldering

Selling Points

- Excellent protection / bulk compromise:
 - 118 x 100 x 10 cm crashpad, easy to transport and position on the terrain
 - three layers of foam of different densities and structures for better cushioning
 - one-piece hingeless design for uniform cushioning over the entire surface
- Petzl's patented folding system: zippered flap closure covers the carrying system, for greater protection and to create a storage space during transport
- Easy to use and carry:
 - adjustable bandolier for quick transport between boulders
 - multiple handles for easy handling of the open crash pad
 - handle for carrying the crash pad by hand when it is closed
 - adjustable shoulder, waist and chest straps with solid metal buckles that are easy to adjust
 - can be used for lounging
- Innovative design and durable materials:
 - waterproof, ultra-durable fabric is reinforced in exposed areas
 - protected corners
 - lower seams in contact with ground are protected
