## RESCUE

---

The RESCUE pulley is very strong and efficient: ideal for rescue, hauling heavy loads and intensive use.

---

**Short Description** High-strength pulley with swinging side plates

---

**Selling Points**

- Designed to maneuver heavy loads or for intensive use
- Large diameter sheave mounted on sealed ball bearings for excellent efficiency
- Accepts up to three carabiners to facilitate use

---

**Specification**

- Material(s): aluminum side plates, aluminum sheave
- Certification(s): CE EN 12278, UIAA

---

**Specifications by reference**

<b>Reference(s)</b>	<b>P50A</b>
Weight	185 g
Min. rope diameter	7 mm
Max. rope diameter	13 mm
Sheave diameter	38 mm
Efficiency	95 %
Working load	8 kN
Working load	on one rope strand: 4 kN
Breaking strength	36 kN
Made in	FR
Guarantee	3 years
Packing	1
Case quantity	10
EAN	3342540087798
