WILLIAM

The WILLIAM asymmetrical large capacity aluminum carabiner has a pear shape that is practical for easily connecting multiple items. Its ergonomics and Keylock system facilitate manipulations, even when wearing gloves. The WILLIAM carabiner is available in two locking systems: manual SCREW-LOCK or automatic BALL-LOCK.

Short Description Large, pear-shaped locking carabiner for belay stations and belaying with a Munter hitch

- Selling Points**
- Great capacity thanks to its large dimensions:
 - carabiner can hold a very large quantity of equipment
 - optimal shape for belaying with a Munter hitch
 - Ergonomics:
 - shape designed for gripping with gloves on
 - asymmetrical pear shape facilitates opening and the manipulation of the locking system
 - Keylock system to avoid any involuntary snagging of the carabiner
 - Available in three locking systems, each for different situations:
 - SCREW-LOCK: occasional use, dirty environments
 - BALL-LOCK: frequent use with practical automatic locking; secure use with triple-action opening

-
- Specification**
- Material(s): aluminum
 - Certification(s): CE EN 12275
-
